

# OFFSHORE WIND – WIND POWER PACKAGE - PERMITTING

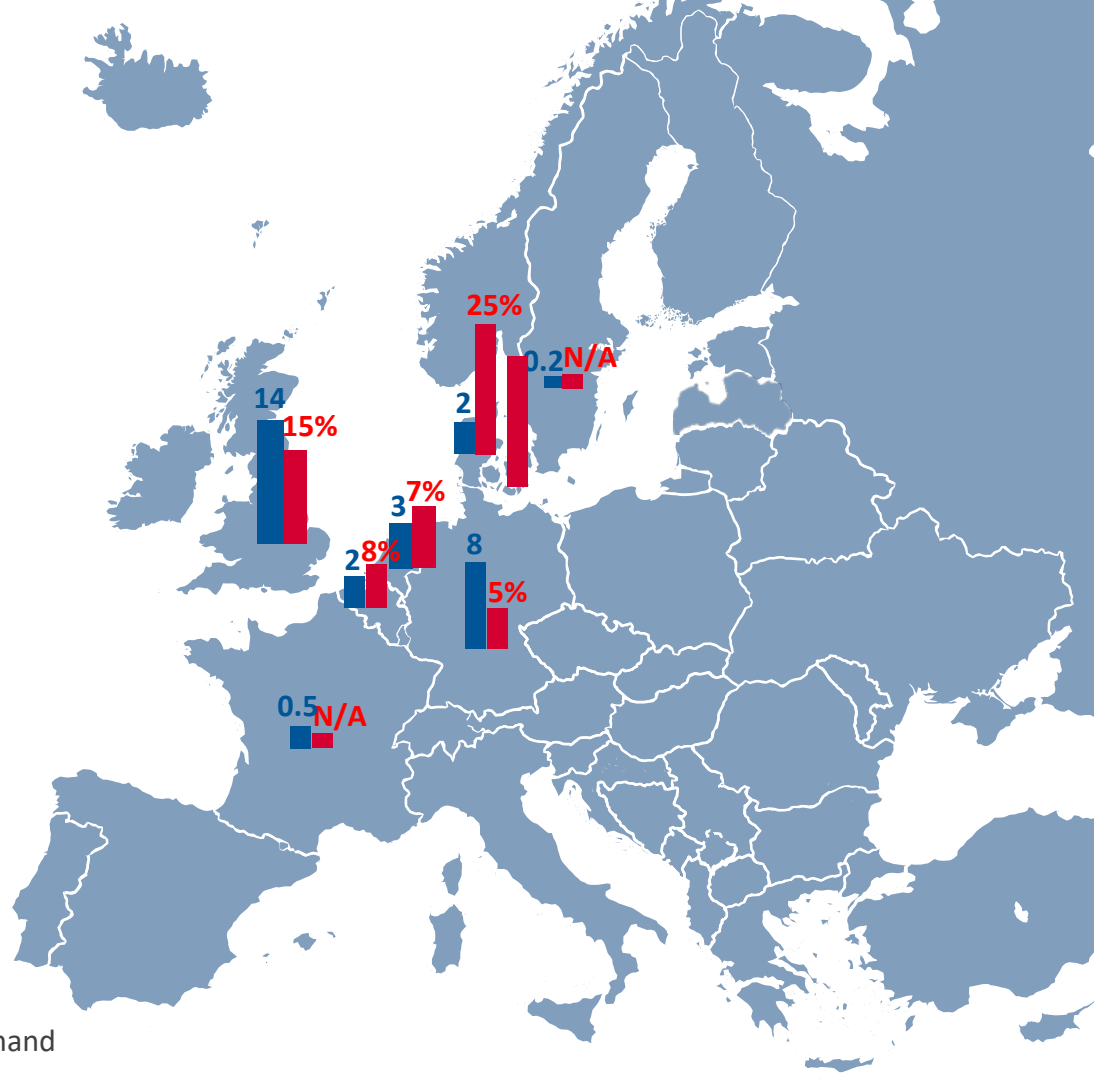

Iván Pineda, Director of Innovation

# Offshore wind in Europe

32 GW

3%

of Europe's  
electricity demand

North Seas Energy  
Cooperation

North Seas Energy Cooperation

# Action Agenda

November 1, Netherlands 2021

# Greater North Sea Basin Initiative ministerial meeting 21/Nov, The Hague.

# Wind Power Package

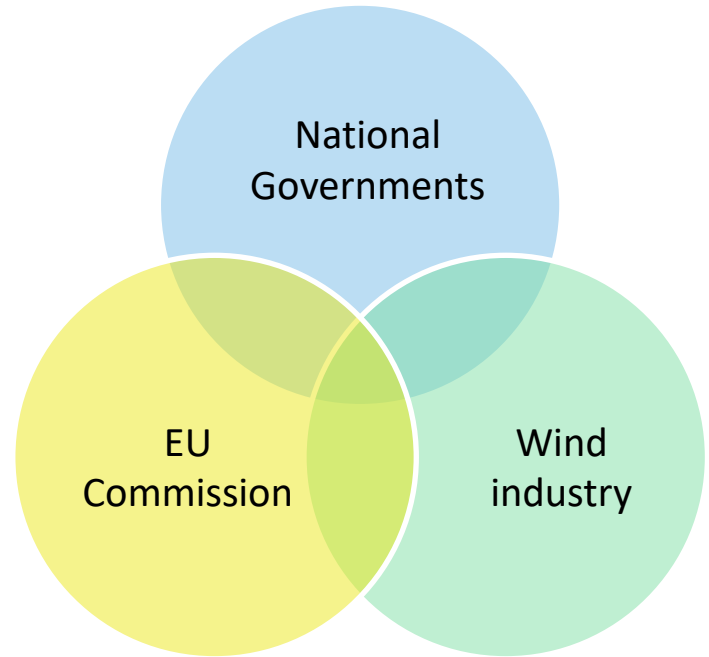

**“The future of our clean tech industry has to be made in Europe”**

# Wind Power Package

- Better auction design
- Investments in factories
- Faster permitting

- Use existing legislation

Wind Energy Charter to be signed by:

# Permitting remains a bottleneck

# Final deal on EU Permitting rules in REDIII

Overriding public interest

Population-based approach

2 years for all permits

Faster permitting in & outside  
'acceleration' areas

Digitalisation

# Fast-track permitting even more

Enforce the implementation of good rules

Support authorities with digitalisation

NECPs include concrete measures

Country-specific recommendations
