Key takeaways - Summarising our discussion today, what would you say are the key actions to unlock CEE's offshore wind potential?

There should be more interest in offshore also in landlocked countries

Continuous & harmful Russian influence on specific legislative proposals

Collaboration and engagement of all stakeholders.

Good and lots of communication with for example the society, politicians, companies ...

Germany is not the only EU country with lots of unused potential

Interesting insights in PL and BU situation. Interconnectors as possibility to ensure the independence

Onshore Infrastructure to support development of offshore industry (to be more used in communication) as a huge OPPORTUNITY! Ecological topics are not necessarily due to offshore
